

RE-LIGHT

SHED LIGHT
ON EVERY DETAIL

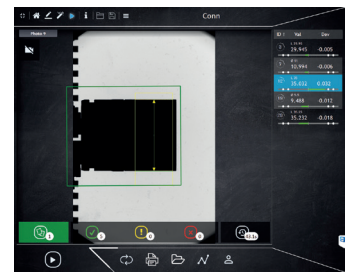

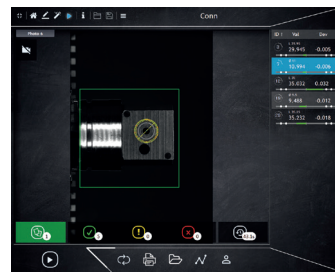

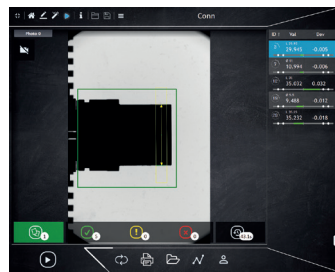

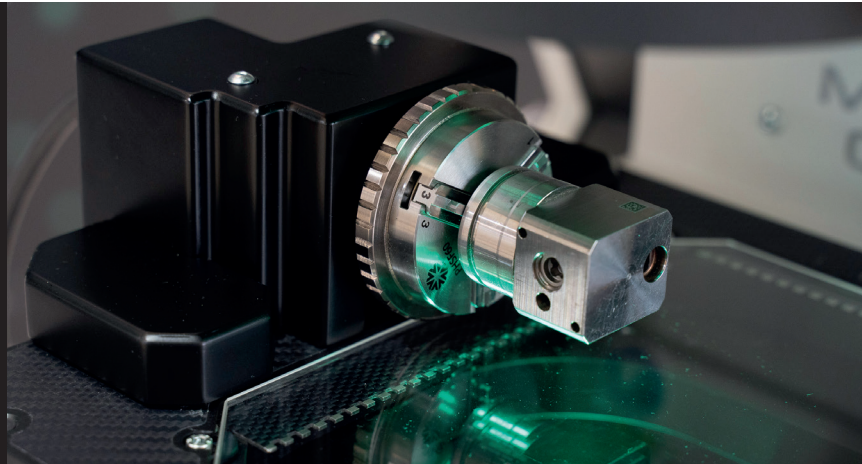

metriOS

MEASURE EVERY SIDE OF THE PART IN A SINGLE CYCLE

AUTOMATIC ROTATION

- Lower cycle-time
- Trust in a reliable cycle-time
- Obtain all the results in a single report

EXECUTE ROTATIONAL MEASUREMENTS

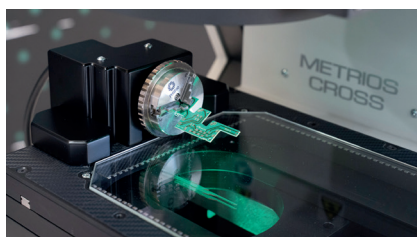

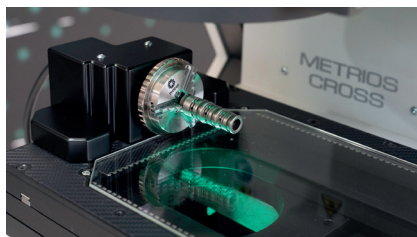

Even more functionalities: obtain measurements of all the details on a single program.

GUIDED PART ORIENTATION

Eliminate human error related to the positioning of the part.

ARE YOU REALLY SURE YOUR PART IS LEVEL?

Use RE-LIGHT to position the parts that cannot be put on the glass surface.

ALL-IN-ONE: FLAT AND CYLINDRICAL PARTS, MEASURED ON THE SAME DEVICE

POSITION CYLINDRICAL PARTS AUTOMATICALLY

- Diameters, chamfers, keyway slots. Metrios automatically finds the reference point to orientate the measurement
- No human error in the positioning phase
- Save time and money
- Measure all parts in the same way
